REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Auburn:

There is no good reason for a long report on the condition of schools in your town. It is always true everywhere that schools are capable of being improved and it is also true that every school system has its strong and weak points. It is the chief business of School Boards, Superintendents and Teachers to build up the weak points and still further advance the best that is now accomplished. This is the story of progress in all fields of human effort.

Auburn's schools have been economically managed during the past years and certainly this is no time to incur unnecessary expense.

The tax levy for school purposes has been conservative in the past, with a tendency to reduce the tax-burden. This general trend is continued in the 1935 to 1936 budget, which asks for $8,227.54 instead of $9,002.50 for the current year.

Nothing of importance will be omitted in next year's work and with this reduction of tax levy there can and no doubt will be the usual growth and strengthening of the schoolroom accomplishment.

There is always a chance to improve the quality both of the teaching and of effort on the part of pupils. Auburn is no exception to this rule.

I am making no special recommendation other than that careful consideration be given to the question of enlarging the schoolhouse in District Number One, where, at present, there are too many pupils for the size of the room but not too many for one teacher to easily handle.

Respectfully submitted,

G. H. WHITCHER,
Superintendent of Schools

Because eyes will withstand so much abuse uncomplainingly, many people are indifferent to harmful lighting conditions.

Good light is so cheap that you cannot afford to wait until your eyes have become damaged. The difference between good light and bad is often just a matter of changing the type or position of a few lamps in your home.
